SELECT ACADEMIC PROJECTS

- **Smartphone Store System:** Used Java and SQL to develop a software that consists of 5 components for managing customers, suppliers, orders, and sales analysis; It enables users to interact with the database through UI
- **Banking Application:** Implemented a banking system that can record and display customers' login and transaction activities; collaborated with group members using GitHub

OTHER EXPERIENCE

Content Operation Project Manager   Oct. 2017 - Apr. 2022
China Mobile Group Hunan Co., Ltd., Changsha, China
- Built a user tag system consisting of approximately 400 tags based on big data analysis of users' preferences and behaviors in terms of apps, contents and timing
- Collaborated with internal marketing teams and external technical teams; designed and developed a content website for daily content operation and user data analysis

Content Operation Project Manager Continued…

- Applied the tag system to make weekly operation strategies and execute daily content operations
- Increased over 30 thousand pageviews of company's content website within a month after release, and contributed to DOU (average handset data traffic per user per month)

Team Lead, International Business Team   Mar. 2014 - Aug. 2017
Migu Comic Co., Ltd. (Child Company of China Mobile), Xiamen, China
- Expanded intellectual property cooperation with overseas animation enterprises (mainly in Japan) and introduced 80 Japanese popular Manga comics including Naruto, Bleach and One piece
- Supervised the production of Chinese original manga comics and animations in Japanese version and released it on Niconico, the most popular video-sharing platform in Japan.
- Hosted 5 offline Japanese voice actors' fan meetings and Japanese animations music concert

Account Manager   Jan. 2013 - Mar. 2014
Alcatel-Lucent Shanghai Bell, Shanghai, China
- Liaised and maintained collaborative relationships with China's three main telecommunication operators: China Mobile, China Telecom, and China Unicom
- Provide support to clients, including resolving issues, overseeing escalated issues and business development
